EDUCATION

Banasthali Vidyapith, Bachelors in Information Technology

Jul 2022 – May 2026

EXPERIENCE

Appcrave Technovations Pvt. Ltd., Udaipur | Web Development Intern

Jan 2026 – Present

- Gaining practical experience in **WordPress** development while actively contributing to real-world projects such as **ProjectX** and **ClinicFlow**.
- Building and managing full-stack applications using the **MERN Stack**, working extensively with **React.js**, **MongoDB**, and **RESTful APIs**.
- Strengthening understanding of frontend-backend integration, API handling, and database management while developing scalable and efficient web solutions.

Softworld India Pvt. Ltd., Jaipur | SQL Development Intern

May 2025 – Jun 2025

- Gained hands-on experience in **SQL**, **data testing**, and **software systems** by working on real-world IT practices under expert mentorship.
- Wrote SQL queries, performed data validation, and prepared detailed reports to ensure **accuracy**, **consistency**, and **reliability** across datasets.
- Strengthened technical proficiency in SQL and data testing while deepening understanding of **backend development processes** and **data engineering practices**.

PROJECTS

ProjectX - Augmentik | Appcrave Technovations Pvt. Ltd., Udaipur

Jan 2026 – Present

- Built **Augmentik**, an AI-powered workforce and recruitment management platform using the **MERN stack**, focused on automating HR, hiring, and employee management workflows.
- Developed **Auggie**, an interactive **AI assistant** and **mascot**-based chat system capable of handling recruiter queries, candidate screening workflows, task management, and conversational operations across **web** and **mobile** platforms.
- Designed a scalable **SaaS** architecture with modern UI/UX principles, **integrating AI-driven automation**, **real-time workflow management**, **secure backend APIs**, and **cross-platform support** for enterprise-level usability.

Stock Market Prediction

Feb 2024 – Apr 2024

- Successfully presented and defended the research paper at the **Viksit Bharat 2047 International Conference**, demonstrating strong analytical and communication skills.
- Conducted research on Stock Market Prediction using Machine Learning, integrating **Recurrent Neural Networks (RNN)** and **Random Forest models** with real-world market data for comparative analysis.

CNN-Based COVID Detection

Dec 2023 – Feb 2024

- Built a **CNN-based** deep learning model to classify chest X-ray images into three categories: **COVID-19**, **viral pneumonia**, and **normal** cases.
- Implemented data loading and preprocessing using **Keras** and **TensorFlow**, and enhanced model performance using dropout and batch normalization to reduce overfitting, achieving **85%** classification accuracy.

Audio Net

Dec 2023 – Feb 2024

- Developed a bird-call recognition system using **PyTorch**, applying EDA and **Mel-spectrogram**-based feature extraction to classify bird species from audio recordings.
- Achieved **70% accuracy** in species recognition, showcasing proficiency in deep learning, audio signal processing, and model optimization.

TECHNICAL SKILLS

Languages: Python, C, C++.

Tools & Technologies: GitHub, VS Code, Git, Jupyter Notebook, Microsoft Office, LaTeX, Wordpress.

AI/ML Technologies: Machine Learning, Deep Learning, TensorFlow, Keras, Pytorch, CNN, RNN.

Libraries/Frameworks: NumPy, Pandas, React.js .

Database: MySQL, DBMS, MangoDB.

Web Technologies: HTML, CSS, JavaScript, MERN Stack.

Soft Skills: Technical Writing, Research, Communication, Team Collaboration.

Relevant Coursework: Object-Oriented Programming, Operating System, Software Engineering, DBMS.

CERTIFICATES

- **Introduction to Generative AI** – Completed an introductory course on Generative AI, covering large language models, text generation, prompt engineering, and responsible AI practices.
- **Generative AI for Data Analytics** - Completed an introductory course on Generative AI for Data Analytics, focusing on leveraging generative models to automate data generation, insight discovery, and predictive analytics.

EXTRACURRICULAR ACTIVITIES

- **E-Cell (entrepreneurship cell)** 2023 – Present
 - Contributed to Entrepreneurship Cell activities by managing events, coordinating student initiatives, and assisting with photography, certificates, and poster design.
- **Mayukh (TechFest)** jan 25 – Mar25
 - Served as Sub-Core Team Member in Photography, capturing and documenting key events to support media and coverage activities.
